CHEF WIFE LLC // League of Extraordinary Chefs

# League of Extraordinary Chefs

On the first Saturday of May 2021, 10 incredible chefs converged on Churchill Downs to execute the 147th running of the Kentucky Derby. This is the day the League of Extraordinary Chefs was officially born.

Since then our ranks have grown to full roster of world class chefs. We strive to create dining perfection for resorts, professional sporting, entertainment, convention, corporate, and private events across the United States.

The League offers talented chefs for events of all sizes, and short-term to permanent placements. Our chefs are vetted prior to acceptance into the League and held to the highest of professional standards.

# Permanent Hire vs Task Force Talent

## COMFORTABLE WITH STATUS QUO

Permanent hires become comfortable in their roles and rooted in their routine.

## LIMITED EXPERIENCE

Permanent hires are not exposed to diverse experiences that push them to grow and expand their skills.

## LIMITED BREADTH OF SKILLS

Permanent hires' skills development is limited to what is necessary to complete their job as described in their job description.

## SHIP JUMPING

Permanent hires can quit with a moment's notice, leaving the business in a pickle, and without fully recouping the upfront costs to hire.

## EXPERIENCED

Our chefs have experience in a wide-range of culinary settings - from resorts and fine dining to conventions and sporting events. Their resumes grow with every assignment.

## HIGHLY-SKILLED

Our chefs are required to obtain extensive certifications and trainings while on-boarding.

## KNOWLEDGABLE

Our chefs dedicate their time to developing their core base of skills on and off assignments.

## DEDICATED

Our chefs know what it takes to be successful and they strive for greatness while practicing flexibility. They are with you from start to finish of every assignment.
